Text Adventure Project
Peer Review

1) What is your name?
   Erdun E
2) What are your partners names?
   Fengkai Liu
3) Give a 3 sentence summary of a partner's project.
   It's an adventure about a man who wakes up with a hangover and needs to get home in a limited amount of time, and for a limited amount of money.
4) What is one suggestion you made to that person?
   Split a user-entered sentence and retrieve whether there are valid verbs and nouns, and determine whether they are logical or not.
5) What were the suggestions about your own project?
   a. Increase the time, that it takes for the user to read the text, do not just pop up the next step/text.
   b. Optimize the order of taking items
   c. Add introduction and background story of the adventure.
6) Which of them do you plan to implement before the project is due and why?
   I plan to implement all of the suggestion before the project is due because of those optimization will improve the user experiences.
